Career Sharing

by Museum Professionals

Date: 26 March 2026 (Thursday)

Time: 6:30 – 8:00pm

Venue: SC 128

Registration

Details:

The Hong Kong Science Museum and the Hong Kong Space Museum, managed by the Leisure and Cultural Services Department of the HKSAR Government, are two of Hong Kong's premier cultural institutions dedicated to science communication. Both museums aim to make science accessible, engaging, and inspiring for the public.

The Hong Kong Science Museum offers an engaging and interactive environment for visitors of all ages. With over 500 exhibits and an extensive range of educational programmes, the museum encourages active learning and exploration. Visitors can explore scientific concepts ranging from fundamental principles to cutting-edge technologies, sparking curiosity and fostering a deeper appreciation for science.

The Hong Kong Space Museum focuses on astronomy and space science. Inside its unique egg-shaped dome, it offers captivating planetarium shows and live demonstrations of astronomical events. The museum also features exhibitions and a variety of educational activities on astronomy and space technology. In addition, its website serves as a valuable community resource, providing stargazing tips, basic astronomy knowledge, and the latest updates on astronomical discoveries.

Together, the museums serve as educational hubs, inspiring a passion for science and discovery. In this sharing session, assistant curators from both museums will share their career paths and experiences in museum work. Through this, we hope to help students better understand the museum profession, its challenges and opportunities, and inspire them to prepare for careers in the museum field.

About Our Speakers:

Dr. Venus Man
Assistant Curator, Hong Kong Science Museum

Dr. Rainbow Phang
Assistant Curator, Hong Kong Space Museum
