About Our Speaker:

Dr. Bill WONG

CEO, NutrigeneAI Biotech Limited

PhD in cancer biology, Stanford University

BSc and MPhil in Biology, CUHK

Dr. Wong is a veteran in the pharmaceutical industry, and has a proven career track spanning a number of companies over 15 years, including Johnson & Johnson, Celgene, Sincere, HiFiBio, InnoRNA, and Sirnaomics, just to name a few. He has also taken up leadership positions, such as currently serving as CEO of NutrigeneAI focusing on regenerative medicines, advancing iPSC-derived enhanced endothelial cell therapies for severe vascular diseases. His previous leadership positions include CEO at EDIRNA and ABRAM Therapeutics. He is also the holder of a number of patents, and his work contributed directly to the FDA approval of REBLOZYK, a drug that helps patients with anemia to reduce the number of blood transfusions they needed.
